Professional Summary

Computer Science and Engineering undergraduate with hands-on experience in Python, Django, Django REST Framework, SQL, REST API development, and database-driven web applications. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Developed full-stack applications featuring authentication, CRUD operations, database integration, and API testing. Seeking a Software Development Engineer internship to apply programming, problem-solving, and backend development skills.

Technical Skills

Programming Languages: Python, Java, C, SQL, JavaScript

Frameworks and Libraries: Django, Django REST Framework

Web Technologies: HTML5, CSS3, REST APIs

Databases: MySQL, SQLite

Developer Tools: Git, GitHub, VS Code, Postman, Linux

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Projects

SkillTrack Dashboard

github.com/Mahathi651/skilltrack-dashboard

Python, Django, SQLite, HTML5, CSS3

- Developed a full-stack Django application for tracking technical skills, learning goals, projects, and progress.
- Implemented secure user authentication and CRUD operations using Django models, views, forms, templates, and URL routing.
- Designed a relational SQLite database for managing user profiles, technical skills, goals, projects, and progress records.
- Created a responsive dashboard that presents learning activities and progress in an organized interface.

Multi-Vendor E-Commerce Application

github.com/Mahathi651

Python, Django, Django REST Framework, SQLite, Postman

- Developed a multi-vendor e-commerce backend with modules for user accounts, products, carts, wishlists, and orders.
- Designed RESTful APIs for product listing, product details, cart management, wishlist operations, and order processing.
- Implemented JWT authentication and authorization using Django REST Framework and Simple JWT.
- Tested API endpoints using Postman and organized the application using reusable models, serializers, views, and URL configurations.

Education

Vignan's Foundation for Science, Technology and Research

2024–2028

Bachelor of Technology in Computer Science and Engineering

Vadlamudi, Guntur

CGPA: **7.00/10** through Fourth Semester

Sri Chaitanya Junior College

2022–2024

Intermediate in Mathematics, Physics and Chemistry

Vijayawada

Percentage: **92%**

Sri Chaitanya School

2021–2022

Secondary School Certificate

Reddy Palem, Guntur

Percentage: **89%**

Coding Achievements

- Solved **68+ Data Structures and Algorithms problems** on LeetCode across easy, medium, and hard difficulty levels.
- Achieved a **1-star rating** on CodeChef and solved **34+ programming problems**.
- Earned the **Python Bronze Badge** on HackerRank.

Certifications

- Cambridge English Preliminary English Test, Cambridge Assessment English.
- Oracle MyLearn coursework in Artificial Intelligence and emerging technologies.
